

Two –Day National Workshop on Research Plan & Proposal in Collaboration with IQAC from 14-15 February, 2015

About the Workshop:

A research plan outlines convincing answers to all the research questions using the principles of academic enquiry. It is a mechanism that can potentially avoid problems that might emerge in a research work during the latter phases. In order to address various issues related to formulation of research plan CRIT in association with IQAC organized a workshop on Research Plan and Process.

Objectives of the Workshop:

To gain better understanding on the following issues:

- Identification of key components of research plan, Formulation of research problem, Review of literature strategies etc.

Number of Participants: 50
