Venue
Vinayak Hall

INVITATION

Dear colleagues

On behalf of the organizing committee, it is an honour to invite you to attend the **National Conference on Global Approaches in Nutrition, Inclusive Education and Textile Science** to be held on 2-3 February, 2018.

THE IIS UNIVERSITY

The IIS University (IISU) is an exceptionally cosmopolitan and vibrant university based in one of the country's most exciting and ethnically rich cities – the Pink City. It is known for the excellence in the student centered learning and is dedicated and unequally qualified to prepare the students to become the World's next generation of creative leadership. Amongst the thirty eight deemed to be universities in India placed in the category 'A' by Ministry of Human Resource Development, Government of India, it is a progressive institution that has blazed trails since its inception almost two decades ago as the International College for Girls (ICG). Within a short span of being granted an autonomous status by UGC in 2007, the college was declared deemed to be a university in 2009. The IIS University has also been accredited by NAAC and included u/s 12B by the UGC. The university is committed to promote quality education, research and innovation. The University offers a wide array of semester based undergraduate, post graduate and research programmes which make for a robust academic environment. Our motto is the three Es: Efficiency, Excellence and Effectiveness.

THE CONFERENCE

Home Science emerged as a branch of education when women were not encouraged to pursue higher education. The changing trends in the country towards the growing concerns for optimal health, human development and sustainable textile manufacturing, have led to a need for wider discourse. India, at present, is undergoing a rapid nutritional and health transition, with the target being on improved nutrition to ensure proper growth and development. Thus, the main focus and challenge in field of nutrition is to have a healthy and productive life with the delayed onset of life style diseases like cardio vascular diseases, diabetes, hypertension, etc. Tied in with these concerns is the need to highlight and explore the global movement towards inclusive education and exchange the latest development in the policies and programmes for children with special needs. Towards a resolution of both these issues, we need to review our efforts and strengthen our infrastructural facilities to uproot the age-old problem of nutrition to ensure a better future. Alongside these concerns is the discourse regarding advancements and changes in apparel and textile manufacturing. This includes not just technological advancements in the field, but also its economic, social, environmental and marketing impact. Awareness towards proper marketing channels is an essential component for this industry to cater to world. It is imperative to focus on such problems and find appropriate solution to existing problem.

For recasting a global approach, targeting mainly three fields in Home Science i.e. nutrition, Human Development and textile science, as well as, their interface in a sustainable manner, is a serious challenge. Hence, the Department of Home Science has come up with a two day national conference on 'Global Approaches in Nutrition, Inclusive Education and Textile Science', where it will provide a platform for discussions and deliberations on the related issues. The conference will offer an interdisciplinary forum for researchers, practitioners, entrepreneurs and academicians to present and discuss the most recent innovations, trends, concerns, practical challenges encountered and the solutions adopted in the field of Nutrition, Inclusive Education and Textile Science.

THRUST AREAS

- Balanced diet/ Optimum nutrition
- Food based strategies for combating malnutrition

• **Submission of the Abstract : 2nd January, 2018**

• **Registration open: till 15th January, 2018**

JAIPUR

Jaipur, the largest city of Rajasthan is an epitome of magnificence and vibrancy. This royal place is rich in heritage, culture and architecture. With splendid fortresses, majestic palaces, tranquil temples and beautiful havelis, Jaipur turns out to be an ideal tourist destination. The first planned city of India, it is the capital of Rajasthan and International tourists planning to tour Rajasthan start the journey most often from Jaipur. It forms a part of the Golden Triangle - Delhi, Agra and Jaipur, hosting many of India's great cultural gems and providing a good spectrum of the country's different landscapes. The Golden Triangle is so called because of the triangular shape formed by the locations of New Delhi, Agra and Jaipur on the map. Jaipur, the picturesque capital, also known as the Pink city, was founded in 1727 by Maharaja Sawai Jai Singh II. It is not just the royal buildings and palaces that this city offers. Other than these captivating attractions, Jaipur displays exquisite handicrafts and spectacular jewellery. These intricate works of art add life and color to this Pink City's uniqueness. Also, the serenity of lush gardens and floral array acts as a cherry on the cake of fabulous landscapes. All this makes a picturesque view that tends to enthrall any visitor. To add on to its liveliness, this place has brilliant bazaars filled with bright turbans and ethnic attire, hand-dyed and embroidered textiles and delicious food. Dressed in pink, this royal city is the apt blend of heritage, palaces, culture, art and flamboyance. This fascinating city with its romantic charm takes you to an epoch of royalty and tradition.
