W E L C O M E

Dear Students,

Welcome to the IIS University - a place where excellence is cherished, ambition is pursued, creativity is extolled and your uniqueness is affirmed and celebrated.....a place for learning, discovery, innovation, expression and discourse.

As a thriving academic fraternity, we are committed to creating new knowledge, re-imagining teaching and learning, engaging globally, reinventing the spaces where we live and learn, attracting and inspiring the best students and faculty. We strive to invest in our student experience through our distinctive curriculum which is informed by courses that challenge preconceptions and expand horizons, and a pedagogical approach that encourages independent critical thinking and analysis, underpinned by world-class research and strong industry links.

Your intellectual experience in the university does not just happen in a traditional classroom. Cultural, civic and academic interests converge in a plethora of co-curricular opportunities across the campus. Participating in these activities can help you follow your passions, form friendships, learn new skills, network professionally and — of course — enjoy yourself! This is where creativity comes to life. At the IIS University, we believe in convening a community of open-minded individuals. Our campus represents a plurality of faiths and customs, practices and beliefs, ethnicity and identity, leading students and faculty to experience one of the richest forms of diversity.....that of thoughts and opinions.

Education of this kind is - in a real sense - its own reward, for it also contributes substantially to such objectives as social responsibility and professional success. The effectiveness of such an academic experience is indicated by the outstanding records of IISU graduates in scholarly pursuits, the professions, in public service, teaching, business, and the fine arts.

So, what defines our students, faculty and community members? It is their deep commitment to challenging convention as much as themselves. They see things not as they are, but as they can be. And, they strive for a greater impact - one measured in people helped and lives improved. If this sounds like you, join us on the journey, start your tomorrow from here, as we re-dedicate ourselves to help you **ASPIRE** and **ACHIEVE!**

The Beginning...

To desire is to obtain.

To ASPIRE is to ACHIEVE.

On 16 July 1995, an institution with a difference - for girls - was born in Jaipur. Christened as the 'International College for Girls' (ICG), the college became a Centre of Excellence within a short span of time and began to be considered as one of the most sought after institutions in the state providing excellent ambience, infrastructure and facilities to groom its students as world-ready women. With its focus on the development of a scientific temper and a positive attitude along with an emphasis on Indian culture and heritage, ICG became an icon of quality education. It was accredited A+ by the National Assessment and Accreditation Council (NAAC) of the University Grants Commission (UGC) in the year 2005.

In the year 2007, ICG won the recognition it deserved. The institution was granted an autonomous status by the UGC, reposing trust and confidence in the competence of its faculty, management and students. The conferment of the status of a Model College by the state government and CPE (College with Potential for Excellence) by the UGC, lent further credibility and stature to the college. After a remarkable beginning, ICG thus emerged as a first rate centre of higher education, research and training, dedicated to developing and disseminating knowledge to benefit society and the world community at large.

In 2009, the Ministry of Human Resource Development (MHRD), Government of India declared ICG as a Deemed-to-be-a-University under Sections 3 and 12B of the UGC Act, 1956. Apart from this being a remarkable achievement, it was also a re-affirmation of our faith in the quality of education, innovative ideas and research initiatives. Since then, The IIS University has always aimed at empowering women with a focus on the three Es - Efficiency, Excellence and Effectiveness. The Review Committee constituted by the MHRD, Govt. of India has also recognised the competence and strength of The IIS University by placing it amongst the first 38 Deemed-to-be-Universities under Category 'A'. Such a placement in the highest category of assessment has accorded greater recognition to the institution which, today, has more than 5500 students from 18 states and abroad enrolled in various programmes. The Institution is also member of the Association of Indian Universities (AIU) and the Association of Commonwealth Universities (ACU)

MORE THAN JUST ACADEMICS

Self-exploration leads to self-improvement. Keeping in mind the diverse perspectives of today's world and an overall

development of the students, the University has introduced various Guilds based on the essentials of personality development and individual excellence. The concept emerged as a result of an introspection by the University administration and realising the need for providing opportunities to the students to bring forth, foster and enhance their latent talent. The aim is not to create a self-engrossed individual but to develop in her a spirit of team work and respect for the abilities of fellow students. Thereafter, the students may earn additional credits by their continued participation in these programmes.

CII-YI YUVA IISU CHAUPAL

Young Indians (Yi), a constituent of the Confederation of Indian Industry-(CII), was formed with an objective of creating a platform for young Indians to realize the dream of a developed nation. It helps students to become the voice of young Indians globally and makes them an integral part of the Indian growth story. Yi Yuva is the new name for one of Young Indians' vertical entitled Youth Affairs which grooms students from school and colleges by forming "Chaupals" across various institutions from all over the country. It further aims to synergize students and their potential for positive action. As a part of this network, students work in cross-functional teams with a broad objective of enhancing their leadership skills and giving back to the nation. The methodology adopted in these classes hones the analytical skills and linguistic competence of the candidates besides providing an in-depth knowledge required for cracking these exams. The candidates may get enrolled in these classes right from the first year of their admission to the University. Best faculty, extensive study material and regular guest lectures by senior bureaucrats and eminent scholars provide step-by-step guidance towards achieving success in these exams.
